We have built up a business model with the strength of operation capability cultivated through office building business. By utilizing this model, we are actively working on development, operation and revitalization of hotel as the second main pillar following our office building business.

Considering meeting the demands of accommodations from tourists to Japan could benefits the creation of society interests, we are developing the "Inbound City-tourism Hotel" targeting on tourists to Japan.

As one means of further accelerating the growth, we put existing hotel management company Sky Court Hotel Co., Ltd. under our wing with the intent to achieve the goal of creating a "heart-warming hotel". By keeping up the ingenious efforts to increase the added value of hotel, we would like to meet various needs of accommodations from international and domestic tourists.
